Scott, back in the day for Calgulch we used to send the samples off to some CSU co-op that I think did this analysis for farmers. Any recollection of this? I thought they were about half that price.

I have received one quote so far from ACZ that came in at CBI/Ex. 4 would cost \$8848.00. I'm waiting for a couple more quotes but it's likely that they will be about the same if they are able to do the analyses.

Subject: ABA cost estimate

Hey Dan, Scott Walker informed me yesterday that the 70 ABAs for Upper Animas will cost my TO about \$7K. Funding is looking tight for August and this will be tough to cover. Can we reduce the number of ABAs and or wait to send them out in September under the new contract year?

Thanks, -dgg
